

Year 6 Curriculum Map

Autumn 1 2026

Maths

In Maths, we are developing our understanding of place value up to 10,000,000, while learning to compare and order numbers accurately. We are strengthening our skills in the four main operations: addition, subtraction, multiplication and division. We will be revisiting the formal method of long multiplication before learning how to use the long division method. We are also exploring square, cube and prime numbers, developing our understanding of their properties and how they can be identified.

Writing

In our writing lessons, we are exploring *Rose Blanche*, a powerful and thought-provoking text that provides opportunities for children to develop their writing skills and explore important themes. Using the text as inspiration, the children will write a diary entry and an award speech, developing their ability to write effectively for different purposes and audiences. We will focus on creating engaging, well-structured pieces of writing while making careful choices about vocabulary, tone and style. Alongside our writing, we will continue to develop our Year 6 grammar skills, applying these accurately in our independent writing.

Reading

In Year 6, we are currently enjoying *The Final Year* by Matt Goodfellow. This powerful and engaging text provides the foundation for much of our reading and writing work. We develop our reading fluency through regular practice, helping children to read with accuracy, expression and confidence. We also enjoy extended reads and close reads, where we explore the text in greater depth, developing our understanding, vocabulary and ability to respond to what we have read. Alongside our class text, every child is given a book-banded reading book matched to their reading level. This supports children in developing their reading skills, building confidence and encouraging a love of reading both at school and at home.

Walking alongside to live life
in all its fullness.

"Let us run the race that is before us,
and never give up."
Hebrews 12:1

Spellings

Spellings are sent out every Friday. Please ensure children practice the spelling rule for our weekly test the following Friday.

Times Tables

Please encourage you child to continue to practice on TTRS for a chance to win our weekly trophy!

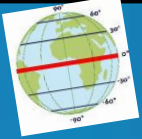

Handwriting

We practise our joined handwriting every morning to develop neat, fluent and confident handwriting.

Geography

In Geography, we are developing our **spatial awareness** and learning to use maps, coordinates and geographical skills to understand the world around us.

RE

In RE, we are exploring **Creation**, considering whether science and religious beliefs are **conflicting or complementary** and discussing different perspectives on how the world came to be.

Science

In Science, we are learning about the **circulatory system** and exploring how the heart, blood and blood vessels work together to transport oxygen and nutrients around the body.

PSHE

We are learning about **water safety**, including how to stay safe in and around water and what to do in an emergency.

PE

In PE, we are developing our skills through **Forest School and gymnastics**, building confidence, coordination, balance and teamwork.

Music

In Music, we are learning about **four-chord pop songs** and developing our skills by **working together in a band**. We will explore rhythm, melody and performance while building confidence in playing and performing as a group.
